Contents

VOLUME 18, NUMBER 1, MARCH 1993
Published 10 March 1993

Y. ANDO
Thermal response and reversibility of diapause in the eggs of *Locusta migratoria* 1–6

F. BIN, S. B. VINSON, M. R. STRAND, S. COLAZZA and W. A. JONES, JR
Source of an egg kairomone for *Trissolcus basalis*, a parasitoid of *Nezara viridula* 7–15

JOHN COLVIN and A. GAVIN GATEHOUSE
The reproduction-flight syndrome and the inheritance of tethered-flight activity in the cotton-bollworm moth, *Heliothis armigera* 16–22

FELIX D. GUERRERO, FRANK S. GUILLOT and WILLIAM F. FISHER
Effects of citrate, heparin and cation supplementation on mortality and egg production of laboratory-reared horn flies 23–30

M. O. HARRIS, S. ROSE and P. MALSCH
The role of vision in the host plant-finding behaviour of the Hessian fly 31–42

C. J. DEN OTTER and W. M. VAN DER GOES VAN NATERS
Responses of individual antennal olfactory cells of tsetse flies (*Glossina m.morsitans*) to phenols from cattle urine 43–49

D. S. KOVEOS, A. KROON and A. VEERMAN
Geographic variation of diapause intensity in the spider mite *Tetranychus urticae* 50–56

WERNER LOHER, THEO WEBER and FRANZ HUBER
The effect of mating on phonotactic behaviour in *Gryllus bimaculatus* (De Geer) 57–66

P. M. LÖSEL and L. J. GOODMAN
Effects on the feeding behaviour of *Nilaparvata lugens* (Stål) of sublethal concentrations of the foliarly applied nitromethylene heterocycle 2-nitromethylene-1,3-thiazinan-3-yl-carbamaldehyde 67–74

A. S. PULLIN and H. WOLDA
Glycerol and glucose accumulation during diapause in a tropical beetle 75–78

E. R. RUMBO
Interactions between male moths of the lightbrown apple moth, *Epiphyas postvittana* (Walker) (Lep.: Tort.), landing on synthetic sex pheromone sources in a wind-tunnel 79–86

X. VAFOPOULOU, C. G. H. STEEL, V. ALEPOROU-MARINOU and T. PATARYAS
Haemolymph ecdysteroid titres at metamorphosis in the fruit fly *Ceratitis capitata*: multiple peaks not apparent in whole body extracts 87–92

CHRISTINE YING-SHIN PENG, CHIH-MING YIN and LUCY R. S. YIN
Ultrastructure of honey bee, *Apis mellifera*, sperm with special emphasis on the acrosomal complex following high-pressure freezing fixation 93–101

QUENTIN PAYNTER and JOHN BRADY
Flight responses of tsetse flies (*Glossina*) to octenol and acetone vapour in a wind-tunnel 102–108

VOLUME 18, NUMBER 2, JUNE 1993
Published 8 June 1993

JOHN COLVIN and A. GAVIN GATEHOUSE
Migration and the effect of three environmental factors on the pre-reproductive period of the cotton-bollworm moth, *Helicoverpa armigera* 109–113

PHILIP S. CORBET and DAVE D. CHADEE
An improved method for detecting substrate preferences shown by mosquitoes that exhibit 'skip oviposition' 114–118

S. S. DUFFEY and J. M. PASTEELS
Transient uptake of hypericin by chrysomelids is regulated by feeding behaviour 119–129

KIRSTY A. GASTON and SARAH E. RANDOLPH
Reproductive under-performance of tsetse flies in the laboratory, related to feeding frequency 130–136

J. ADRIAAN GULDEMOND, A. F. G. DIXON, J. A. PICKETT, L. J. WADHAMS and C. M. WOODCOCK
Specificity of sex pheromones, the role of host plant odour in the olfactory attraction of males, and mate recognition in the aphid *Cryptomyzus* 137–143

SARAH J. LOCKE and YING-SHIN PENG
The effects of drone age, semen storage and contamination on semen quality in the honey bee (*Apis mellifera*) 144–148

A. GUNN and A. G. GATEHOUSE
The migration syndrome in the African armyworm moth, *Spodoptera exempta*: allocation of resources to flight and reproduction 149–159

C. HABERSETZER and A. BONAVITA-COUGOURDAN
Cuticular spectra in the slave-making ant *Polyergus rufescens* and the slave species *Formica rufibarbis* 160–166

C. HABERSETZER
Cuticular spectra and inter-individual recognition in the slave-making ant *Polyergus rufescens* and the slave species *Formica rufibarbis* 167–175

E. THIBOUT, J. F. GUILLOT and J. AUGER
Microorganisms are involved in the production of volatile kairomones affecting the host seeking behaviour of *Diadromus pulchellus*, a parasitoid of *Acrolepiopsis assectella* 176–182

ER-NING HAN and A. GAVIN GATEHOUSE
Flight capacity: genetic determination and physiological constraints in a migratory moth *Mythimna separata* 183–188

SEAN O'DONNELL and ROBERT L. JEANNE
Methoprene accelerates age polyethism in workers of a social wasp (*Polybia occidentalis*) 189–194

P. SPORK and R. PREISS
Control of flight by means of lateral visual stimuli in gregarious desert locusts, *Schistocerca gregaria* 195–203

TRISTRAM D. WYATT, ALUN D. G. PHILLIPS and JEAN-CLAUDE GRÉGOIRE
Turbulence, trees and semiochemicals: wind-tunnel orientation of the predator, *Rhizophagus grandis*, to its barkbeetle prey, *Dendroctonus micans* 204–210

R. WALL and P. A. LANGLEY
The mating behaviour of tsetse flies (*Glossina*): a review 211–218

M. M. PILE, M. S. J. SIMMONDS and W. M. BLANEY
Odour-mediated upwind flight of *Culex quinquefasciatus* mosquitoes elicited by a synthetic attractant: a reappraisal 219–221

BOOK REVIEW 222

VOLUME 18, NUMBER 3, SEPTEMBER 1993
Published 6 September 1993

J. L. BLACKMER and D. N. BYRNE
Flight behaviour of *Bemisia tabaci* in a vertical flight chamber: effect of time of day, sex, age and host quality 223–232

SUBRATA DAS, OUIDA W. MEIER and JOSEPH WOODRING
Diel rhythms of adipokinetic hormone, fat body response, and haemolymph lipid and sugar levels in the house cricket 223–239

YUJI KIMURA and SINZO MASAKI
Hourglass and oscillator expressions of photoperiodic diapause response in the cabbage moth *Mamestra brassicae* 240–246

E. DONAHAYE
Biological differences between strains of *Tribolium castaneum* selected for resistance to hypoxia and hypercarbia, and the unselected strain 247–250

K. A. EVANS and L. J. ALLEN-WILLIAMS
Distant olfactory response of the cabbage seed weevil, *Ceutorhynchus assimils*, to oilseed rape odour in the field 251–256

M. GADOT, M. P. PENER and C. SCHAL
Variability in Juvenile Hormone production by locust corpora allata kept *in vitro* for long periods 257–262

S. E. HEADY
Factors affecting female sexual receptivity in the planthopper, *Prokelisia dolus* 263–270

DARRELL MOORE and MARY ANN RANKIN
Light and temperature entrainment of a locomotor rhythm in honeybees 271–278

D. R. PAPAJ and M. ALUJA
Temporal dynamics of host-marking in the tropical tephritid fly, *Anastrepha ludens* 279–284

STEVEN C. PETERSON, FRANK E. HANSON and J. DAVID WARTHEN, JR
Deterrence coding by a larval *Manduca* chemosensory neurone mediating rejection of a non-host plant, *Canna generalis* L. 285–295

NANCY MORAN, JEFFREY SEMINOFF and LAUREL JOHNSTONE
Induction of winged sexuparae in root-inhabiting colonies of the aphid *Pemphigus betae* 296–302

REED N. ROYALTY, P. LARRY PHELAN and FRANKLIN R. HALL
Comparative effects of form, colour, and pheromone of twospotted spider mite quiescent deutonymphs on male guarding behaviour 303–316

W. F. TJALLINGII and TH. HOGEN ESCH
Fine structure of aphid stylet routes in plant tissues in correlation with EPG signals 317–328

VOLUME 18, NUMBER 4, DECEMBER 1993
Published 15 December 1993

P. J. ALBERT, R. Y. ZACHARUK, D. K. WEAVER and J. E. MCFARLANE
Electrophysiological and behavioural responses to lactic acid stimuli in larvae of *Tenebrio molitor* L. (Coleoptera: Tenebrionidae) and permeability of antennal sensilla 329–335

J. L. BLACKMER and D. N. BYRNE
Environmental and physiological factors influencing phototactic flight of *Bemisia tabaci* 336–342

A. BLACKWELL, A. J. MORDUE (LUNTZ), B. S. HANSSON, L. J. WADHAMS and J. A. PICKETT
A behavioural and electrophysiological study of oviposition cues for *Culex quinquefasciatus* 343–348

RALPH E. CHARLTON, HIROO KANNO, ROBERT D. COLLINS and RING T. CARDÉ
Influence of pheromone concentration and ambient temperature on flight of the gypsy moth, *Lymantria dispar* (L.), in a sustained-flight wind tunnel 349–362

YONG-BIAO LIU and KENNETH F. HAYNES
Impact of (Z)-7-dodecenol and turbulence on pheromone-mediated flight manoeuvres of male *Trichoplusia ni* 363–371

F. D. DUNCAN and R. M. CREWE
A comparison of the energetics of foraging of three species of *Leptogenys* (Hymenoptera, Formicidae) 372–378

P. L. MILLER
Responses of rectal pumping to oxygen lack by larval *Calopteryx splendens* (Zygoptera: Odonata) 379–388

STEPHEN F. NOTTINGHAM and JIM HARDIE
Flight behaviour of the black bean aphid, *Aphis fabae*, and the cabbage aphid, *Brevicoryne brassicae*, in host and non-host plant odour 389–394

S. J. SIMPSON and D. RAUBENHEIMER
The central role of the haemolymph in the regulation of nutrient intake in insects 395–403

KARL J. SIEGERT, JOHN R. SPEAKMAN and STUART E. REYNOLDS
Carbohydrate and lipid metabolism during the last larval moult of the tobacco hornworm, *Manduca sexta* 404–408

BRIAN A. STOCKHOFF
Protein intake by gypsy moth larvae on homogeneous and heterogeneous diets 409–419

MICHAEL J. SMIRLE
The influence of colony population and brood rearing intensity on the activity of detoxifying enzymes in worker honey bees 420–424

F. P. ZANOTTO, S. J. SIMPSON and D. RAUBENHEIMER
The regulation of growth by locusts through post-ingestive compensation for variation in the levels of dietary protein and carbohydrate 425–434

LORRAINE W. STRATHIE and SUSAN W. NICOLSON
Post-eclosion diuresis in a flightless insect, the silkmoth, *Bombyx mori* 435–439
